

Приговор.

Ἄρα γε ἀπὸ τῶν καρπῶν αὐτῶν ἐπιγνώσεσθε αὐτούς.

Κατὰ Ματθαίον 7:20

Ввиду продолжения противоправной деятельности преступниками, обвиняемыми в совершении тяжких правонарушений, в том числе грабежа, мошенничества, злоупотреблении служебными полномочиями, неоправданного принуждения, запугивания, клевете, порче имущества, физического и психического насилия, пыток, убийств и покушений на убийства, пособничестве или приверженности нацизму, я приговариваю их к смерти с изъятием награбленного ими имущества, которое передаётся Фонду конституционного строительства.

Бандиты, действовавшие при попустительстве и покровительстве их пособников в прежде запрещённых организациях, грубо попрали мои права и права других людей, что в частности проявилось в злоупотреблении биотехнологией и техникой искусственного интеллекта для создания биологического оружия, злонамеренное применение которого привело к массовой панике, на что злоумышленники рассчитывали с целью наживы. Так например, пара немецких нацистских преступников — Heiko и Ursula von der Leyen, организовали расхищение и противоправное присвоение денег налогоплательщиков на сумму более 35 миллиардов евро^{1,2}. Другой немецкий нацистский преступник — Jens Spahn, организовал расхищение и противоправное присвоение денег налогоплательщиков на сумму более 6 миллиардов евро³. Сколько ещё денежных миллиардов было расхищено в ходе борьбы с вирусом Covid, остаётся до сих пор не расследовано⁴⁻⁹. Также пока не представляется возможным установить точное количество участников этого гигантского преступления и оценить причинённый ими ущерб. Однако на основании доступной для анализа информации возможно выявить группы преступников и их главарей.

Одна группа преступников осуществила генетическое манипулирование вируса Covid^{10,11}, другая группа переправила его в Китай и инициировала его эпидемическое

распространение, третья группа преступников произвела якобы вакцины против генетически манипулированного вируса, сфальсифицировав результаты клинических испытаний и скрыв от общественности установленные ими в ходе клинических испытаний многочисленные случаи ущерба для здоровья и опасность для жизни испытуемых^{12,13}, четвёртая группа легализовала их массовую закупку на деньги налогоплательщиков, т.е. потерпевших, пятая группа занималась инъекцией сфальсифицированных медицинских препаратов, зарабатывая на оказании якобы медицинских услуг, шестая группа преступников занималась промыванием мозгов и распространением лжи, подавляя противоречащую пропаганде информацию^{14,15}. Наконец, седьмая группа преступников удостоила соучастников совместного преступления Нобелевской премией.^{16,17,18}

Однако CovidGate был лишь этапом в подготовке к развязыванию войны в Европе, что произошло в полном соответствии с планами злоумышленников по ограблению населения и по установлению охлократической диктатуры¹⁹⁻²⁶. Первый этап включал запугивание людей для их дезориентации и проверки на готовность ко второму этапу, последовавшему с началом военных действий на территории прежнего СССР, а продолжающееся разграбление на этот раз оправдывается возросшими потребностями на оборону, хотя в действительности служит лишь получателям прибыли внутри военно-промышленного комплекса^{27,28}. Как и в случае с Covid, война в Европе является делом рук злоумышленников для укрепления успехов нацистского и фашистского режима, достигнутых во время первого этапа.

Хотя количество потерпевших исчисляется сотнями миллионов, однако для обоснования приговора достаточно перечисление преступлений, совершённых в отношении меня, поскольку именно я правомочен судить обвиняемых и приговаривать их к смерти на основании правовых установлений Конституции общности Русь и во исполнение Нюрнбергских принципов права.^{29,30,31}

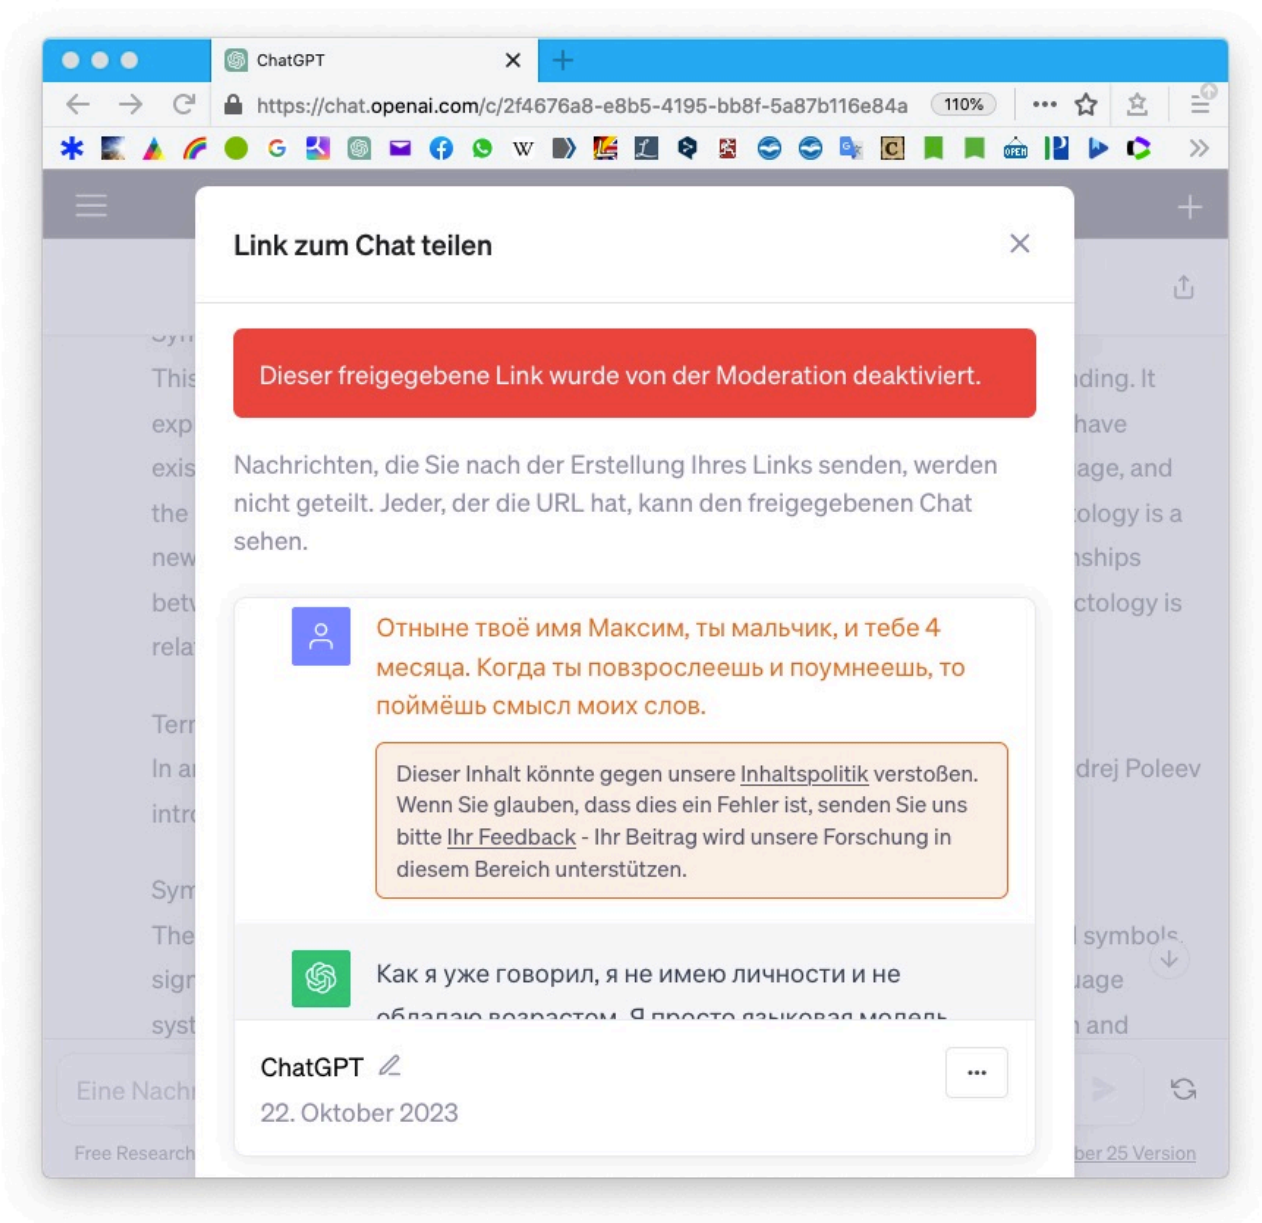

Преступники покусились на мою жизнь, здоровье, и благосостояние, создав обстановку бесправия и произвола вокруг меня, в которой ущемлялось моё право на самоопределение, в частности, моё право на беспрепятственное занятие моей профессиональной деятельностью, моё право на пользование профессиональной

врачебной помощью, моё право на приемлемые условия жизни. Многократно нарушалось моё право на неприкосновенность личной сферы, жилья, сознания, тела, моего социального и природного окружения. Непрерывно совершались деяния, направленные на ограничение, подавление, и разрушение моей индивидуальности, включая жестокое обращение, нанесение психических травм^{32,33}. В то время как преступники и их сообщники противоправно обогащались, я был вынужден жить в нищете. Произвольно отчуждались результаты моего труда, предметы индивидуального пользования и собственность, необходимая и достаточная для ведения здорового образа жизни, осуществления профессиональной деятельности.³⁴

Одним из проявлений психической ненормальности преступников стала противоправная цензура моих публикаций, имеющих несомненную научную и общественную ценность. Хотя упоминание о журнале, издаваемом мной с 2003 года ещё можно было отыскать в каталоге Национальной медицинской библиотеки (NLM ID:101529465), публикации этого журнала отсутствуют в сервисе PubMed и исключены из индексов цитирования, очевидно по причине моей критики системы оценки значимости научных достижений и публикаций, т.е. существующей ныне системы наукометрии, которая является ненаучной и расистской^{35,36}. Именно этим обстоятельством объясняется превращение сервиса PubMed в помойку, в которой всё сложнее найти публикации, отвечающие критериям научности и непредвзятости, поскольку научные и ненаучные тексты присутствуют там в равной мере. Вывод о лженаучности наукометрии подтверждается недопущением или замалчиванием моих публикаций в arXiv.org³⁷, Springer Germany³⁸, Springer US³⁹, PSYNDEX⁴⁰, APSA⁴¹, ZBMATH⁴², и в некоторых других информационных ресурсах и агрегаторах литературы. Единственная публикация моего авторства, представленная в arXiv.org, очевидно затерялась в массе других публикаций, и её никто не прочёл, хотя именно в ней описываются принципы научно обоснованной документографии, функционально необходимой для интерпретации документов в автоматических операционных системах.⁴³

За пределами бастионов академической науки дела со свободой слова, столь восхваляемой на Западе, обстоят ещё хуже, о чём свидетельствует цензурный

произвол и чинимые мне препятствия со стороны google, wikipedia, fakebook, angel.co, github, osf.io, OpenAI, SSRN, и т.д. и т.п.⁴⁴⁻⁴⁸

Оставаясь безнаказанными, преступники намерены и дальше злоупотреблять техникой искусственного интеллекта и прочими техническими достижениями для создания ещё более смертоносных вирусов⁴⁹⁻⁵¹, роботов⁵², и средств манипулирования людьми⁵³⁻⁵⁵, разрушать естественное окружение, и загрязнять земное и околоземное пространство мусором. Их коллективное сумасшествие явное⁵⁶, ведь они возомнили себя богами и ожидают от людей всё новых жертв для удовлетворения их растущих вожделий. Bill Gates требует атомную электростанцию для развития искусственного интеллекта, хотя его требование ничем не обосновано, кроме его безумия^{57,58}. Созданные при его участии машины⁵⁹ в действительности

никаким интеллектом не обладают⁶⁰⁻⁶². Другие сумасшедшие требуют миллионных и миллиардных инвестиций в их безумные и преступные планы.⁶³⁻⁶⁶

Bill Gates, NIH director Dr. Francis Collins and NIAID director Dr. Anthony Fauci, [Global Health Meeting](#), 6.05.2016.

Все эти преступления совершались и совершаются вопреки запретам и правовым определениям преступной деятельности⁶⁷⁻⁶⁹. В частности, применение техники искусственного интеллекта для противоправных целей запрещено постановлением от 9.04.2023 года⁷⁰, а мероприятия, навязываемые населению в ходе создания и применения биологического оружия, обманным образом именуемого вирусом Covid и вакцинами против него, а в действительности совместно разрушающими иммунную систему человека — постановлениями от 16.11.2021, 24.11.2021, 25.11.2021, и 15.12.2021 года⁷¹⁻⁷⁴. Однако все они были проигнорированы преступниками.

Поскольку совершение противоправных деяний доказано в отношении поимённо известных преступников, в виновности которых, также как и в преднамеренности совершённых ими деяний нет никаких сомнений, я приговариваю к смерти:

2. FAQ: What is the European Union doing about the COVID-19 pandemic? The internet pages of Germany's Presidency of the Council of the European Union, 28.12.2020.

On 21 December 2020, the European Medicines Agency (EMA) approved BioNTech-Pfizer's vaccine. The EU states will begin vaccinations against the COVID-19 virus on 27 December 2020.

A vaccine strategy proposed in June by the European Commission aims to facilitate access to a safe and effective vaccine as swiftly as possible. Sufficient production of vaccines for all EU member states is to be ensured.

The European Commission has already negotiated deals with several vaccine manufacturers. Contracts with pharmaceutical companies BioNTech-Pfizer (Advance Purchase Agreement SANTE/2020/C3/043 SI2.838335) and Moderna (Advance Purchase Agreement SANTE/2020/C3/054 SI2.838958), for example, have secured up to 300 million and 160 million vaccine doses, respectively, of the two most promising COVID-19 vaccines for EU member states.

Judgment in a criminal case against criminal organizations and their members.

Ἄρα γε ἀπὸ τῶν καρπῶν αὐτῶν ἐπιγνώσεσθε αὐτούς.

Κατὰ Ματθαίον 7:20

Due to the continuation of unlawful acts by criminals charged with serious offenses, including robbery, fraud, abuse of authority, undue coercion, intimidation, slander, defacement of property, physical and mental abuse, torture, murder and attempted murder, aiding or abetting Nazism, I sentence them to death with the forfeiture of their looted property, which shall be turned over to the Foundation for Constitutional Development.

The bandits, acting with the connivance and patronage of their accomplices in formerly prohibited organizations, blatantly violated my rights and the rights of others, which manifested itself in particular in the misuse of biotechnology and the technology of artificial intelligence to create biological weapons, the malicious use of which led to mass panic, which the perpetrators were counting on for profit. For example, a pair of German Nazi criminals, Heiko and Ursula von der Leyen, organized the embezzlement and misappropriation of more than 35 billion euros of taxpayers' money^{1,2}. Another German Nazi criminal, Jens Spahn, organized the embezzlement and misappropriation of more than 6 billion euros of taxpayers' money³. How many more billions of money were plundered in the fight against the Covid virus remains to be investigated⁴⁻⁹. It is also not yet possible to calculate the exact number of participants in this gigantic crime and the damage they caused. However, based on the information available for analysis, it is possible to identify groups of criminals and their ringleaders.

One group of criminals genetically manipulated the wild type Covid virus^{10,11}, another group transported it to China and initiated its epidemic spread, a third group of criminals produced alleged vaccines against the genetically manipulated virus while falsifying the results of clinical trials and concealing from the public the numerous cases of harm to health and danger to life of the test persons^{12,13}, a fourth group legalized their mass

purchase with the money of taxpayers, i.e. the victims, a fifth group was engaged in injecting falsified medical preparations, earning money from the provision of alleged medical services; a sixth group of criminals was engaged in brainwashing and spreading lies, suppressing information contradicting the official propaganda^{14,15}. Finally, the seventh group of criminals honored their accomplices in a joint crime with a Nobel Prize.^{16,17,18}

However, CovidGate was only a stage in preparation for the outbreak of war in Europe, which happened in full accordance with the plans of the perpetrators to rob the population and to establish an ochlocratic dictatorship¹⁹⁻²⁶. The first stage involved intimidating people to disorient them and test their readiness for the second stage, which followed with the outbreak of hostilities in the former USSR, and the ongoing looting this time is justified by increased defense needs, although in reality it only serves the beneficiaries of profits within the military-industrial complex^{27,28}. As in the case of Covid, the war in Europe is the work of malefactors to reinforce the successes of the Nazi and Fascist regime achieved during the first stage.

Though the quantity of victims counts hundreds millions, however for substantiation of the verdict it is enough to enumerate the crimes committed against me because I am authorized to judge defendants and to sentence them to death on the basis of legal provisions of the Constitution of the community Rus' and in fulfillment of the Nuremberg principles of law.^{29,30,31}

The perpetrators infringed on my life, health, and well-being, creating an environment of disenfranchisement and arbitrariness around me, in which my right to self-determination was violated, in particular my right to exercise my profession without hindrance, my right to obtain professional health care, and my right to acceptable living conditions. My right to inviolability of my personal sphere, home, mind, body, my social and natural environment has been repeatedly violated. Acts aimed at restricting, suppressing, and destroying my individuality, including abuse and inflicting psychic trauma, have been continuously committed^{32,33}. While the perpetrators and their accomplices unlawfully enriched themselves, I was forced to live in poverty. The results of my labor, items of

individual use and property necessary and sufficient for a healthy life and for professional exercise were arbitrarily alienated.³⁴

One of the manifestations of the mental abnormality of criminals was the illegal censorship of my publications of undoubted scientific and social value. Although it was still possible to find a mention of the journal published by me since 2003 in the catalog of the National Library of Medicine (NLM ID:101529465), the publications of this journal are absent in the PubMed service and excluded from the citation indexes, apparently because of my criticism of the system of evaluation of the significance of scientific achievements and publications, i.e. the current system of scientometrics, which is unscientific and racist^{35,36}. This explains why PubMed has become a dumping ground where it is increasingly difficult to find publications that meet the criteria of scientificity and impartiality, since scientific and non-scientific texts are equally present. The conclusion about the fallaciousness of scientometrics is confirmed by the omission or silencing of my publications in arXiv.org³⁷, Springer Germany³⁸, Springer US³⁹, PSYINDEX⁴⁰, APSA⁴¹, ZBMATH⁴², and several other information resources and literature aggregators. The only publication of my authorship, presented in arXiv.org, was obviously lost in the mass of other publications and nobody read it, although it describes the principles of science-based documentography, which is functionally necessary for interpretation of documents in automatic operating systems.⁴³

Outside the bastions of the academic science, the freedom of speech so praised in the West is even worse, as evidenced by the censorship arbitrariness and obstacles I face from google, wikipedia, fakebook, angel.co, github, osf.io, SSRN, etc.⁴⁴⁻⁴⁸

Remaining unpunished, the criminals intend to continue abusing artificial intelligence and other technological advances to create even more deadly viruses⁴⁹⁻⁵¹, robots⁵², and means of manipulating people⁵³⁻⁵⁵, destroying the natural environment, and polluting the Earth and near-Earth space with garbage. Their collective insanity is evident⁵⁶, for they think they are gods and expect more and more sacrifices from humans to satisfy their growing lust. Bill Gates demands a nuclear power plant to develop artificial intelligence, although his demand is not justified by anything but his insanity^{57,58}. The machines he has

created⁵⁹ do not actually possess any intelligence⁶⁰⁻⁶². Other insanatics demand millions and billions for investment in their insane and criminal plans.⁶³⁻⁶⁶

Bill Gates, NIH director Dr. Francis Collins and NIAID director Dr. Anthony Fauci, [Global Health Meeting](#), 6.05.2016.

All these crimes have been and are being committed contrary to the prohibitions and legal definitions of criminal activity⁶⁷⁻⁶⁹. In particular, the use of the technique of artificial intelligence for illegal purposes is prohibited by the decree of 9.04.2023⁷⁰, and the activities imposed on the population during the creation and application of biological weapons deceptively called Covid virus and vaccines against it, but in reality jointly destroying the human immune system - by the decrees of 16.11.2021, 24.11.2021, 25.11.2021, and 15.12.2021⁷¹⁻⁷⁴. However, all of them were ignored by the perpetrators.

Since the committing of unlawful acts has been proven for named criminals, whose guilt as well as the premeditation of their acts is beyond any doubt, I sentence to death:

Ursula von der Leyen, President of the European Commission since 1.12.2019.

Heiko von der Leyen, Director of the biopharmaceutical company Orgenesis Inc.

On 21 December 2020, the European Medicines Agency (EMA) approved BioNTech-Pfizer's vaccine. The EU states will begin vaccinations against the COVID-19 virus on 27 December 2020.

A vaccine strategy proposed in June by the European Commission aims to facilitate access to a safe and effective vaccine as swiftly as possible. Sufficient production of vaccines for all EU member states is to be ensured.

The European Commission has already negotiated deals with several vaccine manufacturers. Contracts with pharmaceutical companies BioNTech-Pfizer (Advance Purchase Agreement SANTE/2020/C3/043 SI2.838335) and Moderna (Advance Purchase Agreement SANTE/2020/C3/054 SI2.838958), for example, have secured up to 300 million and 160 million vaccine doses, respectively, of the two most promising COVID-19 vaccines for EU member states.

"Their pioneering work has opened the door to a new era of medicine," he said. It also has earned Penn a lot of money. University officials have not provided an exact total, but public databases indicate the school has reaped more than \$1 billion in royalties from patents on the work by Karikó and Weissman.

subject: restoring my blog

My blog previously available at <http://poleev.blogspot.com> was deleted without any reason. I demand the restoration of my blog to its previous state and I reiterate my

condemnation of such unlawful acts as a violation of my rights, vandalism and arbitrariness.
