1.07.2023

Request for Mutual Legal Assistance in Criminal Matters.

According to my [decision of 15.10.2022](#), all assets and property of Telegram Messenger Inc. and its former and now dispossessed owners and operators are seized and transferred to the Foundation for Constitutional Development, which is directed by me, in consequence of tortious acts committed by them. {1}

Due to the refusal of the liable parties, who, to my knowledge, reside in the United Arab Emirates, to surrender seized assets and property and to cease prohibited activities, I now request legal assistance from the judicial authorities of the United Arab Emirates, who are obliged to take the requested legal measures in the sense of and in accordance with the law of obligation as defined in the German Civil Code (Bürgerliches Gesetzbuch), in the Constitution of the Community Rus', and in the Nuremberg Principles of Law.

Please pay attention to the fact that I am authorized to act on behalf of both the Foundation for Constitutional Development and the Community Rus' in agreement with the rule of law specified in its Constitution.

Dr. Andrej Poleev
